1. Introduction

This document is the User Manual of the **MUM Online Test System**. MUM Online Test System is used for job-seeking students to help review the interview questions (for example, Java and JavaScript).

There are 4 types of roles in the system: **Admin, DBA, Coach and Student**. You could find who you are in the right corner of the window.

Admin, DBA and Coach are the administrators of the system, which are usually handled by university staff. Student means the MUM students who are doing job seeking, which will take part in the test once they receive the test link from email triggered by university staff from whom that holds the Coach Account.

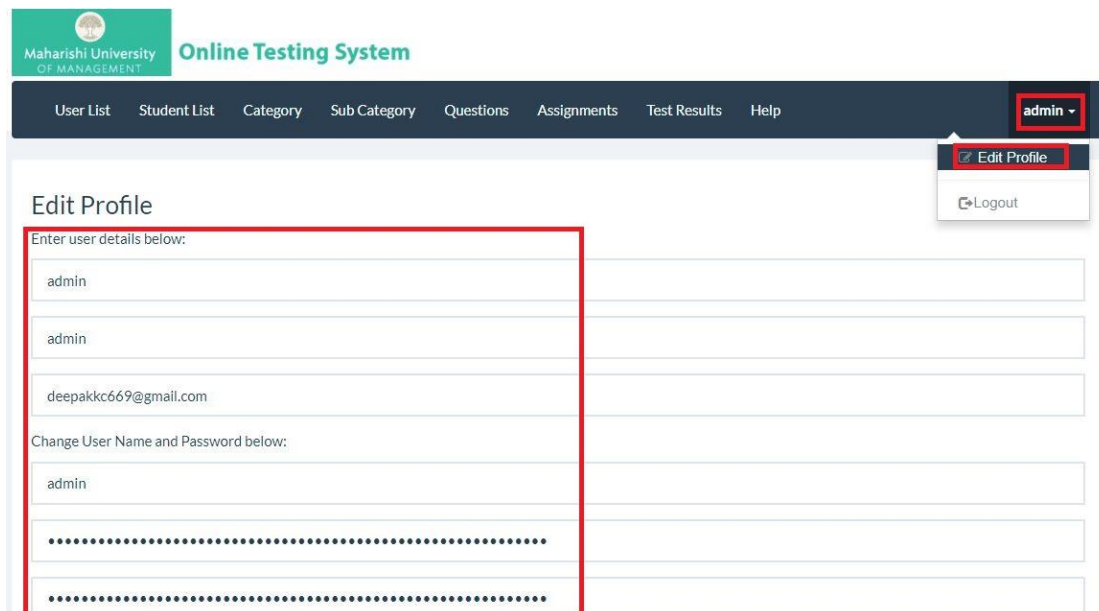

2. Admin Manual

Admin user is the super user of the system. Please check the function of the Admin User below:

2.1 Edit Profile

As an admin you are able to edit your own profile including changing your password.

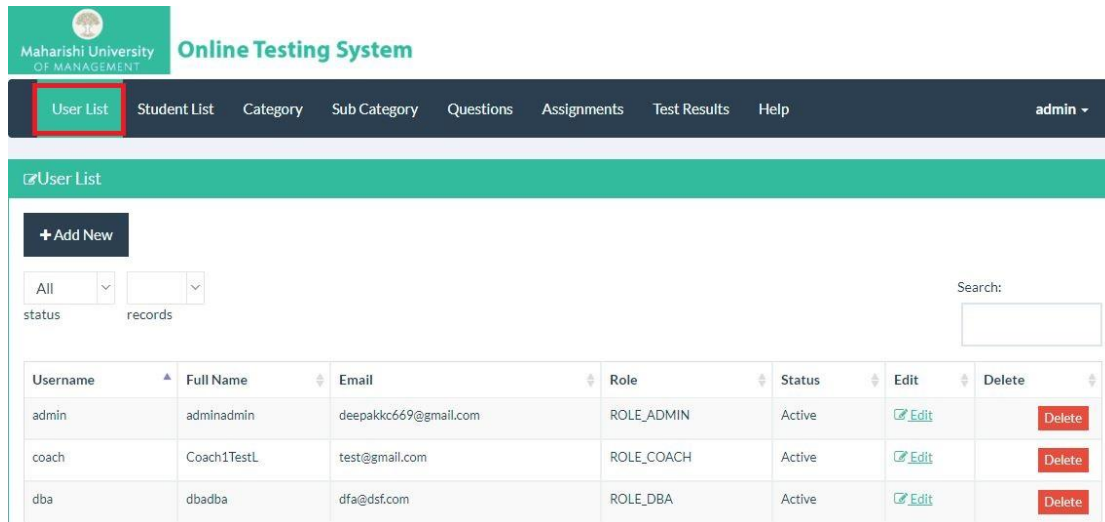

2.2 Manage Users

Admin user could manage all the other 3 types of users (Coach, DBA and Student).

2.2.1 Check Existing Users

You could check the users that are already stored in the system. Reminder: Users here concludes all Admin, Coach and DBA users.

2.3.2 Register New Student

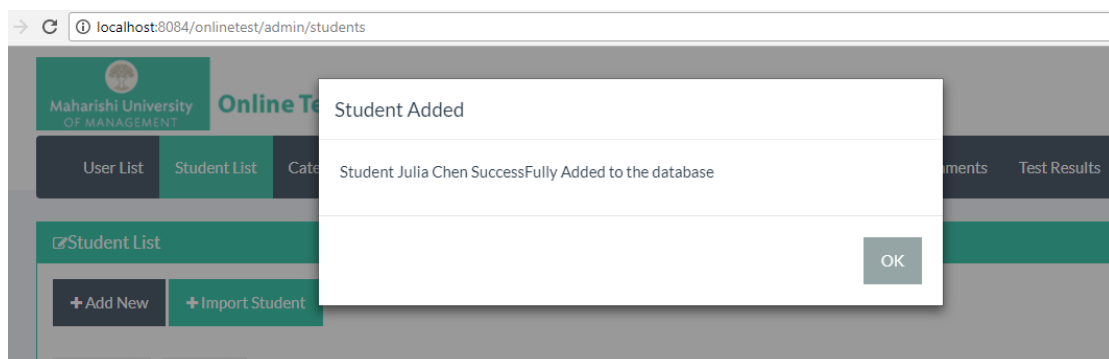

Click the **Add New** Button under **Student List** Menu

Input the student information

A screenshot of the 'Register New Student' form. The form is titled 'Register New Student' and asks to 'Enter student information below:'. It contains several input fields: a text field for the name 'Julia', another text field for the name 'Chen', an email field with 'juliachenjing@gmail.com', a phone number field with '985300', a date field with 'August 2016', and a dropdown menu for 'Job search status' with 'Active' selected. At the bottom right of the form, there are 'CANCEL' and 'SUBMIT' buttons.

Click **Submit** Button, system will save the added Student.

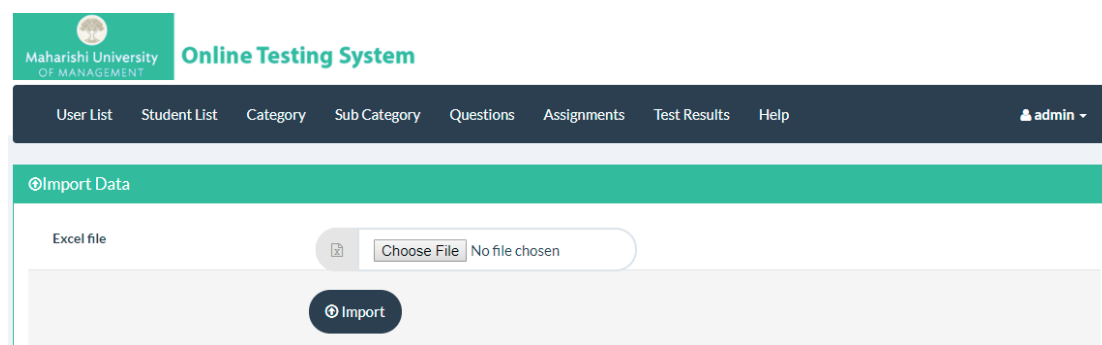

2.3.3 Import Students by Excel File

You could import a big amount of students by using **Import Student** Button.

Click the **Choose File** button.

Get ready for the file with the format shown below:

Student List Data columns.xlsx

5. Student Manual

5.1 Take the Test

As a student who is doing job seeking, every now and then **Coach** will generate some online test to help you find the weak point of your knowledge tree. All you need is to follow the guide below:

After the coach generates the test, you will receive the link and Access Code in your email:

mumtestlink@gmail.com
2:54 PM (15 minutes ago) ☆

to me ▾

Access the test you need to enter the access code provided below. Please find the link and the access code below:

Access Link: <https://ots.cs.mum.edu/onlinetest/test>

Access Code: TaPbGVVOnQ

Getting to know what is strong and what is weak on your knowledge tree will be helpful for your job search!

Click the link, and you will see the guidance:

← → ↻ Secure | https://ots.cs.mum.edu/online/test/readme ☆

 **Online Testing System**

Dear Students! Please read this carefully

Purpose of the Test:

1. Your Coach needs to know your technical abilities so that your coach can assess you and help you through your job search.
2. This test does not stop you continuing your job search. There is no grading or evaluation from this test.
3. Take it easy and answer your questions logically which ever you feel is correct.
4. We are getting you practiced for the technical tests so that you know what kind of questions are asked during your employer technical tests or technical interviews.
5. You can choose to write this test again after completion of this test. You need to contact your coach and get his approval. He will send you an email with the access code.6. The test is for continuing in job search and to help you in preparing for technical interviews, please help me assess your level of technical knowledge.
7. All your test results will be with your coach and they are kept confidential. He needs them in order to help you arrange some technical assistance.

About Test:

8. Choose 4 categories and start taking your test.
9. Total time to this test is 120 minutes.
10. Once 120 minutes time is done, the session will be automatically ended.
11. We wish you all the best and enjoy the test.

Begin

Input the Access Code shown in mail:

Access Code

Enter Access Code:
